Mortgage related general insurance with star quality

With award winning products, we've got you covered

Paymentshield are a UK based organisation and have grown considerably since our business began in 1992 yet our company culture remains true to our family business origins with customers firmly at the forefront of our priorities. In 2006, we became part of the Towergate Group, Europe's largest independently owned insurance intermediary.

We provide UK based call centres and our policies are underwritten by household names you can trust. However, you won't see our adverts on the television or find us on price comparison websites because our products are exclusively available via financial intermediaries, this is because we believe they're best placed to provide impartial advice on your insurance requirements.

In the same way hotels use a number of stars to help travellers understand what amenities they can expect during their stay, Defaqto Star Ratings help you know the level of features and benefits within a particular financial product.

Defaqto describe their 4 star rating as:

A very good product compared to the rest of the market for people who want a product with above average levels of a wide range of cover.

Defaqto describe their 5 star rating as:

An excellent product compared to the rest of the market for people who want a product with high levels of a wide range of cover.
