ATLANTA PRODUCT APPROVAL PROCESS

TARGET MARKET

Core

The product is a mass market product designed to meet the needs of landlords aged 18 and over letting a property in the UK who require buildings or buildings and contents cover to protect their property against insured events such as flood, fire, storm, or theft. The product is suitable for both individuals and those trading as a limited company.

The product is not suitable for the following landlords:

- Landlords who do not have a tenancy agreement between themselves (or the letting agent) and the tenant.
- Landlords whose property is used for any purpose other than residential.
- Landlords whose property has signs of or has ever had any damage caused to it by landslip, subsidence, or heave.
- Landlords who have any unspent convictions or pending prosecutions, other than motoring convictions.
- Landlords who have had insurance cancelled, declined, declared void or had any special terms imposed.
- Landlords whose property will be occupied by more than 6 individual tenants.
- Landlords whose property is a bedsit or divided into individual self-contained units each with individual cooking facilities.
- Landlords whose property or land belonging to the property has flooded in the last 10 year.

DISTRIBUTION

Core

Our Landlords Insurance product is designed to be sold through partners who engage with property owners. These are typically partners that interact with landlords during a property related transaction such as a property purchase or remortgage and companies who offer our product as part of a wider review of a customer's financial products. This includes mortgage brokers, financial advisors, volume telephony call centres and concierge style businesses.

FAIR VALUE ASSESSMENT

Purpose of the review

The purpose of this review is to provide assurance that the products and the way they are distributed are delivering fair value to the identified target market. Where deficiencies are identified, actions must be documented to remedy them and tracked through to completion. Consideration must be given to retrospective remedial action where customer detriment is identified, the need to communicate product review outcomes, issues or revised material to any manufacturers, co-manufacturers and distributors in the chain, amendments required to product approval processes or if there is any material impact to strategy.

How Atlanta assess each product

Atlanta Group product reviews cover a range of areas and key metrics covering pricing, product, service, distribution chain which all contribute to delivering overall fair value for customers. Each section is rated against a number of internal tolerance thresholds/SLAs, which are reviewed on an annual basis and approved by Atlanta Executive Committee.

How Atlanta address concerns

Where concerns have been identified actions with owners have been put in place including an accountable Executive Committee owner. Actions are to be completed within 3-6 months with their impact on the metrics monitored. Where an area of concern requires action / input from an insurer partner the specific action will be raised directly by your Atlanta account contact and tracked to closure. If a product is offering little utility to a customer i.e. seemingly not meeting a need as the claims frequency and insurer loss ratios are consistently below acceptable levels, it would be considered the product or a panel provider is not providing fair value which would require either significant product redesign or possible withdrawal.

Overall outcome

It is considered that the product package is providing overall fair value to customers. Some actions have been identified to further improve value to customers.

Next review

See Summary Outcome above.

FAIR VALUE ASSESSMENT - ACTIONS

DETAIL	ACTION	DUE DATE
The product is not on the market for new business and is now underwritten by a sole insurer. Existing customers have remained on the product although we do have a newer Panel product that offers optional covers and extras.	Action is to determine approach to migrating product. If not, consider the changes needed to update this product.	Dec 23
